In addition to the Headquarters in Madison, Wisconsin, three strategically located regional offices in North America support the dealer network.

Improve bottom line profits in high volume applications . . .

- Casinos
- Nightclubs
- Pool Halls
- Hotels
- Restaurants
- Bowling Alleys
- Neighborhood bars

A single 16-brand Laser dispenser can control:

• Up to 15 different brands of liquor
• Up to 48 pre-programmed cocktails
• Up to 3 portion sizes for each brand
• Accurate pouring of liquors with different viscosities
• Up to 3 price levels for each brand
• Better inventory control — every ounce of every brand dispensed can be accounted for.
• Minimizes ‘lost’ liquor — due to overpouring, broken bottles, and unauthorized comp drinks.
• Faster, consistent service to the customer — every brand controlled by a Laser dispenser cuts drink preparation time with preprogrammed accuracy of portions and cocktail combinations.

Laser fast pouring for your most popular brands and cocktails . . .

Advanced Technology and proven liquor management . . .

with INFINITY™

INFINITY System Overview

- INFINITY Dispenser Units (Laser, All-Bottle & TAP1)
- Programmable portion sizes and price levels — for all system stations, together or individually
- Patented design (#29184) — assures positive, full-compensation delivery
- Special liquor tubing and components — made only with “taste-free” FDA materials
- Laser accelerate bar efficiency and pump exclusive, “taste-free” water to the system for cost-containment
- Patented design — does not impart taste to the liquor
- Non-pressurized bottles so they can be changed while system is operating
- Easy to disassemble
- Non-rinse washable materials

Laser Reserve System Overview

- Air filter/regulator provides clean, filtered air to the system
- Turbo-Flo pump reserve system for high-speed pumping of liquor, up to 12 meters
- Special liquor tubing and components — made only with “taste-free” FDA materials
- Aerosol-ejector system allows air consumption and air accumulation tank provide constant-line pressure, reserve capacity to pour 72 ounces of drink, even with air supply shut down

Management Reports

- INFINITY Reports — offers quick and easy access to the system's data

INFINITY Features —
- Controls and reports on every drink poured for an infinite number of brands and stations
- Interfaces any combination or number of BERG INFINITY Dispenser Units (Laser, All-Bottle & TAP1)
- Programmable portion sizes and price levels — for all system stations, together or individually
- Patented management to control and manage the system's formidable power
- Flexible, expandable system architecture
- New from software, compatible with other popular management packages
- Point Of Sale Interface capability
- For total cash control
- Allows remote access to reports when used with modems

INFINITY Reports —
- Z Report — Connectivity and efficiency
- X1 System Summary — Displays total drinks and price of entire system
- X2 Station Sales Summary — Report of total drinks and sales by price and code (brand) per station
- X3 Station Detail — Displays total drinks and sales by price and code (brand) per station
- X4 Station Sales — Displays a detailed breakdown of drinks and sales by price and code for each station in the bar
- Weekly Summary — Displays a detailed breakdown of drinks and sales by price and code for each station in the bar for the last week
- Month Ending Summary — Displays a detailed summary of drinks and sales for each station in the bar
- Annual Summary — Displays a detailed summary of drinks and sales for each brand and for total sales for past year
- Reserve Capacity — Monitors reserves by volume size in all bar for each code (brand)

6, 12, or 16-Brand dispensers offer cost-effective and fingertip control in each deck, hand-held gun
